

**Save Money • Save Water
Save the Planet**

McGILL *SoilBuilder*

Use *SoilBuilder* on:

Trees & Shrubs

Lawns

Flower & Vegetable Gardens

McGill *SoilBuilder* rebuilds poor soil by increasing organic matter, replenishing the soil microbes responsible for nutrient uptake and improving water management. Manufactured from 100% recycled content, McGill *SoilBuilder* is a product you can feel good about - makes lawns, gardens and ornamentals look great while helping the planet.

**Give your soil what
it really wants!**

Using McGill *SoilBuilder*

Fruits, vegetables, ornamentals: Apply 1 to 2 inches of *SoilBuilder*. Incorporate to a depth of 6 to 8 inches, plant and water. Condition this way every other year.

Trees, shrubs: Dig a hole the same depth as the root ball and two to three times as wide. Mix 1 part *SoilBuilder* with 2 parts soil saved from the planting hole. Place the plant in the planting hole and apply amended soil around the root ball. Firm the soil as the hole is backfilled and water thoroughly.

New turf areas: Apply 1 to 2 inches of *SoilBuilder* and incorporate to a depth of 6 to 8 inches. Apply seed or install sod; rake and water.

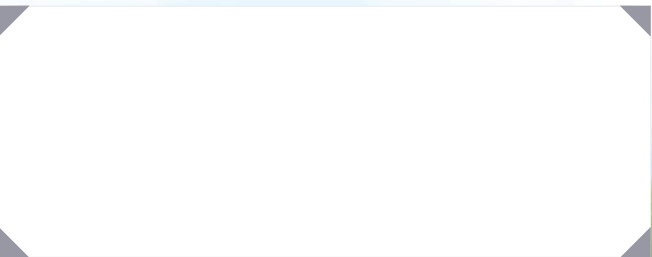

Topsoil manufacturing / upgrading: Mix 1 part *SoilBuilder* with 2 to 3 parts soil and blend.

Turf topdressing: Core-aerate turf making 4 to 5 passes over the area to be top-dressed. Apply a ¼" to ½" application of *SoilBuilder* to the turf surface using standard topdressing equipment, or apply by hand. Rake or back-drag *SoilBuilder* into the turf canopy and core holes. Seed (if needed) and water.

Coverage: 1 cubic yard will cover...

Sq. ft. covered	Approx. depth
648	½ inch
324	1 inch
162	2 inches

134 cubic yards cover 1 acre at 1 inch depth
