CAPABILITIES STATEMENT

Biodegradable Waste Management and Recycling

Active in CCR | DUNS: 782510085 | Cage Code: 4ANQ3

McGill, a small business that provides biodegradable waste management and recycling services linked to the manufacture of a line of compost and soil management products, owns and operates two facilities in North Carolina and one in Virginia. Use of McGill services for recycling biosolids, sludge, food waste and other biodegradable materials enables federal and other governmental agencies to meet requirements of the Environmental Executive Order, LEED and other “Green Purchasing” mandates and initiatives.
